# Website report: Tony Rossi

Tony was happy to report all seems to be going well with our Facebook endeavor. The page is private and you will need to use the link sent through the club email to join. All spaar members are encouraged to join. If you are having trouble with getting on our page please contact Tony. <a href="mailto:trossi@hotmail.com">trossi@hotmail.com</a>

### New business/ General discussion:

Tom reported our charter for Halifax launch has been approved for 2023.

The next Halifax launch is 4-29 10-4 However some help is always welcome for setup at 9:00 and teardown after the launch.

Larry commented on the clubs' trailer maintenance history. The members present agreed we are due for a check over and evaluation. Tom said he was going to take care of that and let us know where and if we need repairs, etc. Tom did start a discussion on a bigger trailer, just to plant a seed if we find we'll need to replace the trailer in the upcoming years.

Tom is looking into a wireless launcher.

John Yost started a discussion about weather and launch cancellations. The members present talked about the decisions that are behind a go, no-go launch. The most obvious is the distance some have to travel. Larry reminded us the cost of the porta pot is not refundable, therefore if the launch is cancelled later the club is accountable for that cost.

It has been noted we have had some cancellations in the past that turned out to be good enough. The membership agreed short of a crystal ball it will happen from time to time. An idea was tabled to call every member the morning of the launch for a secondary launch attempt.
